Diabetic Foot Study Group (DFSG)

The aim of the Diabetic Foot Study Group (DFSG) of the European Association for the Study of Diabetes (EASD) is to promote an advancement of knowledge on all aspects of diabetic foot care. This is done through active co-operation and collaboration between endocrinologists, diabetologists, podiatrists, specialist nurses, orthopaedic and vascular surgeons and other specialists with an interest in caring for diabetic patients with foot problems.

European Association for the Study of Diabetes (EASD)

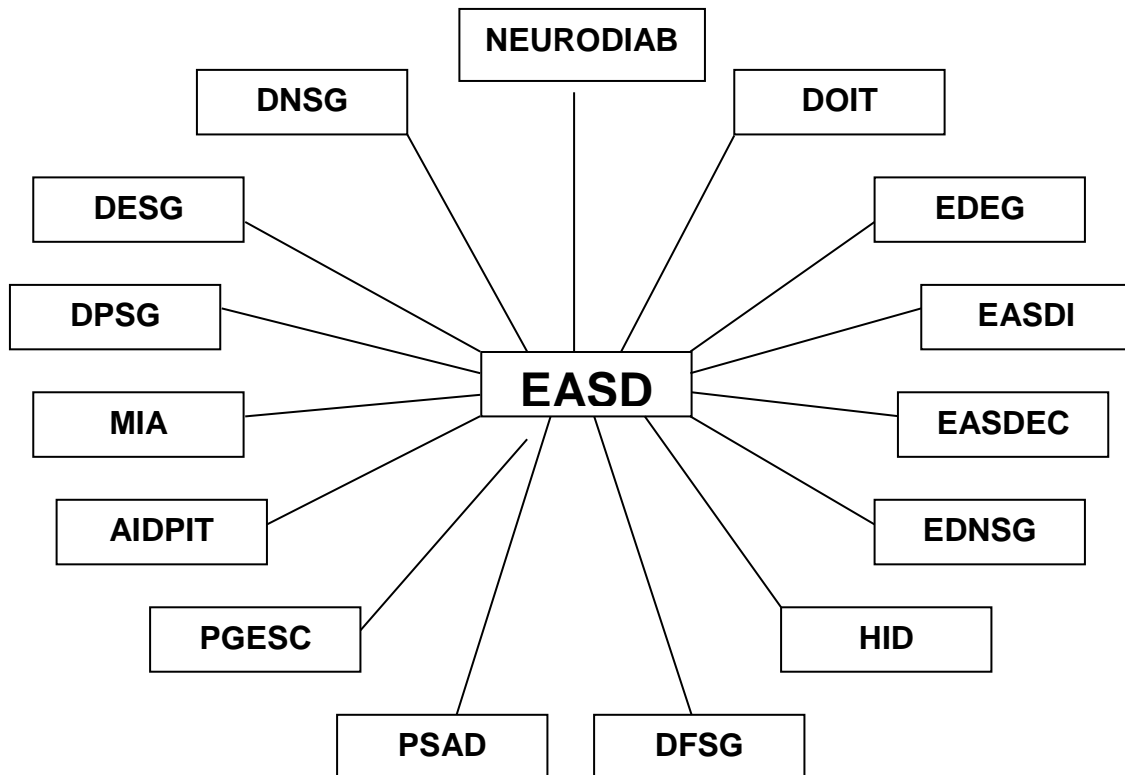

The aim of the Association is to encourage and support research in the field of diabetes, rapid diffusion of acquired knowledge and facilitating its application.

The European Association for the Study of Diabetes (EASD) was founded in Montecatini, Italy in 1965. The Association embraces scientists, physicians, laboratory workers, nurses and students from all over the world who are interested in diabetes and related subjects.

The number of active members of the association is currently more than 5,500 individuals from over 100 countries throughout the world. Find more information on www.easd.org

The annual meeting of the Association is held in different European cities. Between 10,000 and 18,000 people participates.

Description of the Diabetic foot Study Group Conference

Previous meetings have gathered around 300 participants. A majority of these are members of the Diabetic Foot Study Group. Usually, 50-60 % of the participants are physicians, representing most centres of excellence working within the area of diabetes in Europe. Even a number of centres from the USA, India, Russia and Australia are represented.

Traditionally, the conference is held in connection with the much larger conferences of the European Association for the Study of Diabetes (EASD). Consequently, the impact of the DFSG reaches far beyond the DFSG participants, as their recommendations influence all interested in the area of diabetes through the following EASD meeting. This meeting gathers up to 18,000 specialists.

Main subjects during conference:

- Epidemiology
- Basic and clinical science
- Diagnostics
- Classification
- Foot clinics
- Biomechanics, Osteoarthropathy
- Orthopaedic surgery
- Infection
- Revascularisation
- Uraemia
- Wound healing/outcome

Key Information

Conference topics:

- Be updated on diabetic foot research happening across Europe
- Understand risk factors for foot ulceration and Charcot foot
- How technology can help in preventing foot ulcers and facilitate wound healing
- Practice and innovation of Diabetic Foot Wound Treatment

Exhibition

The stand sizes at the DFSG Meeting vary from 4-15 sqm.:

€2,500 per 4 sqm.

€3,300 per 6 sqm.

€4,950 per 9 sqm.

€6,600 per 12 sqm.

€8,250 per 15 sqm.

Incl.: 2 free exhibitor registrations and electricity.

The exhibition area will be used for all coffee breaks and we normally have 20-25 exhibiting companies.

Please note that the maximum number of exhibitors is 4 per stand. Excess personnel must be registered as participants.

Focus Group

€10,000

(Available to gold and silver sponsors)

Focus groups have been used at the DFSG Meetings for several years and are interesting for companies, who:

- Are about to launch a new product
- Are new to the European market and need feed back on their existing products
- Are established in general wound care but need more knowledge about the DFU treatment.
- Would like to establish contact to key opinion leaders
- Are interested in feedback on products or clinical studies

A focus group at the DFSG Meeting has the advantage that you do not need to fly in and accommodate a group of 10-15 persons, as all key opinion leaders are present at the DFSG Meeting. This makes the focus group a cost effective tool to get feedback and promote your product towards key opinion leaders.

Each Focus Group will have to be designed and agreed individually with the DFSG Executive, but the principles for the Focus group will be a 1 ½ to 2 hours discussion. The subject and the participants/countries is decided by the company in cooperation with a member of the DFSG executive.

The participants in the focus group will be picked from the participants of the meeting and for that reason no extra costs in relation to registration, accommodation and travelling needs to be added.

No honorarium will be expected to be paid to the participants unless the planned activity requires preparation or follow-up for the participants.

Please observe, that if the moderator(s) need(s) to do some extra work in relation to the focus group e.g. preparation/publication, a fee will have to be declared between the company and him/her.
