

FRIDAY 18 SEPTEMBER 2020			
Time	Abstract	Title	Speaker
12:00		Welcome speech	DFSG Chairman Klaus Kirketerp-Møller
12:10-13:30		Oral abstracts session 1: Biomechanics	Moderator 1: Frances Game Moderator 2: Raju Ahluwalia
	O1	<i>Predictive values of Foot plantar pressure assessment in patients with rocker bottom deformity secondary to Charcot Neuroarthropathy</i>	Mateo López Moral, Spain
	O2	<i>Association of foot biomechanics, weight-bearing activity and device adherence with ulcer development and ulcer healing in diabetes: a systematic review</i>	Chantal Hulshof, Netherlands
	O3	<i>Plantar pressures and adherence of indoor and regular custom-made footwear for people with diabetes at high risk of foot ulceration'</i>	Tessa Busch-Westbroek, Netherlands
	O4	<i>Can we reduce high foot pressures in patients at risk of DFU using daily monitoring through smart insole technology?</i>	Katie Chatwin, United Kingdom
	O5	<i>Plantar shear stress in foot ulcer pathomechanics: challenging the status quo</i>	Metin Yavuz, United States
	O6	<i>Predictors of therapeutic footwear adherence among people with diabetes</i>	Gustav Jarl, Sweden
13:45-14:45		Oral abstracts session 2: Basic and clinical science, classification and epidemiology	Moderator 1: José Luis Lázaro-Martínez Moderator 2: Roberto Anichini
	O8	<i>The association between plantar skin microcirculation and the indicators of Peripheral Arterial Disease in patients with Diabetes</i>	David Allan, United Kingdom
	O9	<i>Verification of Yearly Incidence of Foot Ulcers in Patients with Diabetes Mellitus at Diabetologic Centre and Recommendation of Preventive Measures (Foot Screening, Education and Monitoring) for At-Risk Diabetics in Clinical Practice</i>	Johana Venerová, Czech Republic
	O10	<i>Multivariable clinical prediction models for foot ulcer recurrence in high-risk people with diabetes</i>	Wouter aan de Stegge, Netherlands
	O11	<i>Midfoot amputations in diabetic patients: a tertiary referral hospital experience</i>	Andrea Michelli, Italy
	O12	<i>The enormous impact of Covid-19 in the diabetic foot, end stage renal failure patients</i>	Elizabeth Pendry, United Kingdom
15:00-15:30		Paul Brand Award Presentation	Moderator 1: Klaus Kirketerp-Møller Moderator 2: Nikolaos Papanas
	Paul Brand Award Oral	<i>Analysis of plantar pressure pattern after metatarsal head resection. Can plantar pressure predict reulceration?</i>	Marta García-Madrid Martín de Almagro, Spain
15:40-16:00		Industry sponsored session: Mölnlycke	
		Empowering patients to play a role in the care of diabetic foot ulcers	Paul Chadwick, United Kingdom
16:15-16:30		Industry sponsored session: Söring	
		Neuroischaemic DFU - Evidenced based recommendations for use of low-frequency contact ultrasound debridement (LFCUD)	José Luis Lázaro Martínez, Spain
16:40-17:10		DFSG Prevention of the First Ulcer Study Group session	Moderator 1: William Jeffcoate Moderator 2: Sicco Bus
		Welcome and introduction	Anna Trocha
			Jarmila Jirkovska, Czech Republic
			Daina Walton, United Kingdom
			Johan Røikjer, Denmark
			Elisabetta Iacopi, Italy
			Matilde Monteiro-Soares, Portugal
SATURDAY 19 SEPTEMBER 2020			
	Abstract	Title	Speaker
10:00-10:45		Industry sponsored session: URGO: Put your patients with diabetes back on their feet sooner - DFU management from clinical evidence to real life efficacy	Moderator: Ralf Lobmann
			Raju Ahluwalia, United Kingdom
			Marco Meloni, Italy
			Chris Manu, United Kingdom
			José Luis Lázaro-Martínez, Spain

11.00-12:15		Oral Award Presentations	Moderator 1: Nikolaos Papanas Moderator 2: Anna Trocha
	Prize Oral 1	<i>The effectiveness of at-home foot temperature monitoring in reducing the incidence of ulcer recurrence in people with diabetes: a multicentre randomized controlled trial (DIATEMP)</i>	Sicco Bus, Netherlands
	Prize Oral 2	<i>Development of a diabetic foot navigator role across a large diabetic foot network allows continued provision high-quality diabetic foot care during the COVID19 pandemic: The South East London Diabetic Foot Network experience.</i>	Prash Vas, United Kingdom
	Prize Oral 3	<i>A Prognostic Model to Predict the Risk of Diabetic Foot Ulceration. A Prospective Cohort Study of Patients with Diabetes in Tanzania</i>	Roozbeh Naemi, United Kingdom
12:20-13:40		Oral abstracts session 3: Outcome	Moderator 1: Enrico Brocco Moderator 2: Maureen Bates
	O13	<i>Outcomes of a digital wound imaging and data management system for the integration of community and secondary care based multidisciplinary diabetic foot clinics.</i>	Doreen Bunting, United Kingdom
	O14	<i>Systematic Review of Surgical Outcomes Using Intramedullary Fixation for Midfoot Charcot Reconstruction</i>	Katherine Raspovic, United States
	O15	<i>Results of a multicentre, prospective, observational study on the healing properties of TLC-NOSF poly-absorbent dressing in chronic wounds. Focus on the Diabetic Foot population</i>	Claas Lüdemann, Germany
	O16	<i>Cost-effectiveness analysis of a TLC-sucrose octasulfate dressing in comparison to a neutral dressing within the treatment of diabetic foot ulcers</i>	Ralf Lobmann, Germany
	O17	<i>Effectiveness of Fast-track pathway for diabetic foot ulcerations: preliminary data from Italy</i>	Marco Meloni, Italy
	O18	<i>Randomized controlled clinical study to elucidate effects on cellular proliferation and dermal repair in complicated diabetic foot ulcers (DFU) debrided with low frequency ultrasound (UAW) compared to DFU receiving standard wound treatment</i>	Yolanda García Álvarez, Spain
13:45-14:00		Industry sponsored session: Trigocare	
		Dryness of foot skin assessed by the visual indicator	Nikolaos Tentolouris, Greece
14:15-15:00		Business Meeting and Assembly	Speaker/moderator 1: Klaus Kirketerp-Møller Speaker/moderator 2: Nikolaos Papanas Speaker/moderator 3: Maureen Bates
		For members of DFSG only
